ARCHITECTS' AND ENGINEERS' SPECIFICATION

The weatherproof housing shall be TekTone® IH511 or approved equal. The IH511 housing shall be of plastic construction for durability and for unhindered signal reception and transmission. The IH511 shall be used for weatherproof indoor or outdoor mounting of the TekTone® NC511 Repeater and/or the TekTone® NC512 Locator in the Tek-CARE®500 Wireless Emergency Call System. Knockouts shall be provided on the back to facilitate easy connection of the AC transformer. The IH511 shall also accommodate mounting of the BA510 Backup Battery when used in conjunction with a NC511 Repeater or NC512 Locator.

TekTone® has designed Tek-CARE®500 to work as a system. Its NC501 Master Station Computer has been carefully designed and matched to work with Tek-CARE®500 wireless and wired peripherals. TekTone® will not warrant or support components of Tek-CARE®500 that are purchased separately unless the components are add-ons to previously sold systems. TekTone® will also not warrant or support a system that is a mix of TekTone® and Non-TekTone® parts, unless prior permission has been obtained. A site survey must be performed and submitted before ordering a Tek-CARE®500 system. In order to track our systems and to inform facilities of software upgrades, full site information (site name, address and phone number) will be required when ordering. Site information and NC501 warranty numbers will also be required when requesting technical support.
