TekTone® Sales Support Bulletin - No. 14

New Directory Style available on the CM402 Stainless Steel Entry Panel

Part Numbers involved: CM402 with a new suffix "N"

Sales are increasing daily on our newly released CM402 series stainless steel apartment entry panels.

Derived from customer input, there is a new option to offer. Panels can now be configured with the popular "name holder" directory style as found on TekTone®'s AM series entry panels. The part number series remains the same, but replace the "D" directory option with the suffix "N". Pricing remains the same!

To the left is a picture of an CM402S006N, six-button, surface panel with the new style "name holder" directory.
