## Tek-ALERT Integration

- Integrates alerts from multiple systems (nurse call, emergency, fire, security, access control)
- Routes notifications to the appropriate caregiver automatically
- Works with networked computers using LS623 Event Monitor for real-time display and reporting
- Sends alerts to smartphones, pagers, and email
- Ensures the right staff receives the right notification at the right time

## TekTone® System Integration

- Connects all Tek-CARE systems (nurse call, wander management, alert integration, wireless/emergency)
- Centralizes calls, events, and messages in one interface
- Enables customizable activity reporting across networked computers
- Supports up to 255 devices or Tek-CARE TVs simultaneously
- Scalable with feature-based licensing

## Wander Management

The **Tek-CARE®700** wander management system gives Alzheimer's, dementia and other at-risk residents the ability to move freely about a facility, while preventing them from leaving or wandering into dangerous areas. Tek-CARE700 runs on our Tek-CARE® Central Equipment, and provides resident ID, loiter and door-ajar monitoring, low tag battery and other alerts.

keypad with display

## Tek-CARE® Staff App

- Displays calls on mobile devices for on-the-go access
- Improves workflow efficiency, response time, and patient satisfaction
- Runs on up to 255 iOS and Android devices
- Supports up to 255 Apple TVs with Tek-CARE TV
- Shows alerts by assigned zones from all connected systems
