- Text is white on a contrasting blue background and illuminated by low power, long lasting red LEDs.
- Each directional arrow can be individually knocked out.
- Sign is equipped with two movable battery-powered emergency backup lights.
- Up to 90 minutes battery run-time.

### Description

TekTone's SI004 and SI004/2 Area of Rescue Assistance Illuminated Signs provide indication for area of rescue locations. The signs comply with the Americans with Disabilities Act (ADA) requirements, and are intended to be used in conjunction with TekTone's Tek-SAFE® Area of Rescue Assistance System. The signs provide visual directions to areas where people who require assistance in evacuating a building can go to await assistance. The SI004 has a single backlit sign; the SI004/2 has backlit signs on both the front and the back.

SI004 and SI004/2 Illuminated Signs
